Hachinohe City

ca. 4,000 BCE to 400 BCE

This site has seen abundant excavations of beautiful pot shards and clay figurines. The lacquer objects in particular are famous for the large number of excellent pieces. The watering place on the lowlands lets you clearly see the village as it was at the time.

Shichinohe Town

ca. 3,500 BCE to 2,000 BCE

Located on a hill overlooking Lake Ogawara, this is one of the largest-scale shell mounds in the Tohoku region. The lower layers contain shells of saltwater shellfishes and the upper layers contain those of brackish shellfishes, clearly reflecting the environmental changes due to marine transgression and regression.
